SPECIALS for Spring Planting

The Garland Flower

DAPHNE CNEORUM

12.5

THROUGHOUT the late depression there was only one plant in the entire list the sales of which did not fall off. Every year, without exception, we have sold every first class Daphne we had. When one knows Daphne this is not to be wondered at, since it is about the loveliest plant that grows out of the ground. The Daphne is a dwarf, trailing evergreen shrub which never grows above a foot tall. It is absolutely the finest plant in existence for rock gardens. It is the loveliest thing imaginable for edging evergreen or other plantings. In bloom it is covered with indescribably beautiful soft pink flowers and it usually blooms twice and sometimes three times a year.

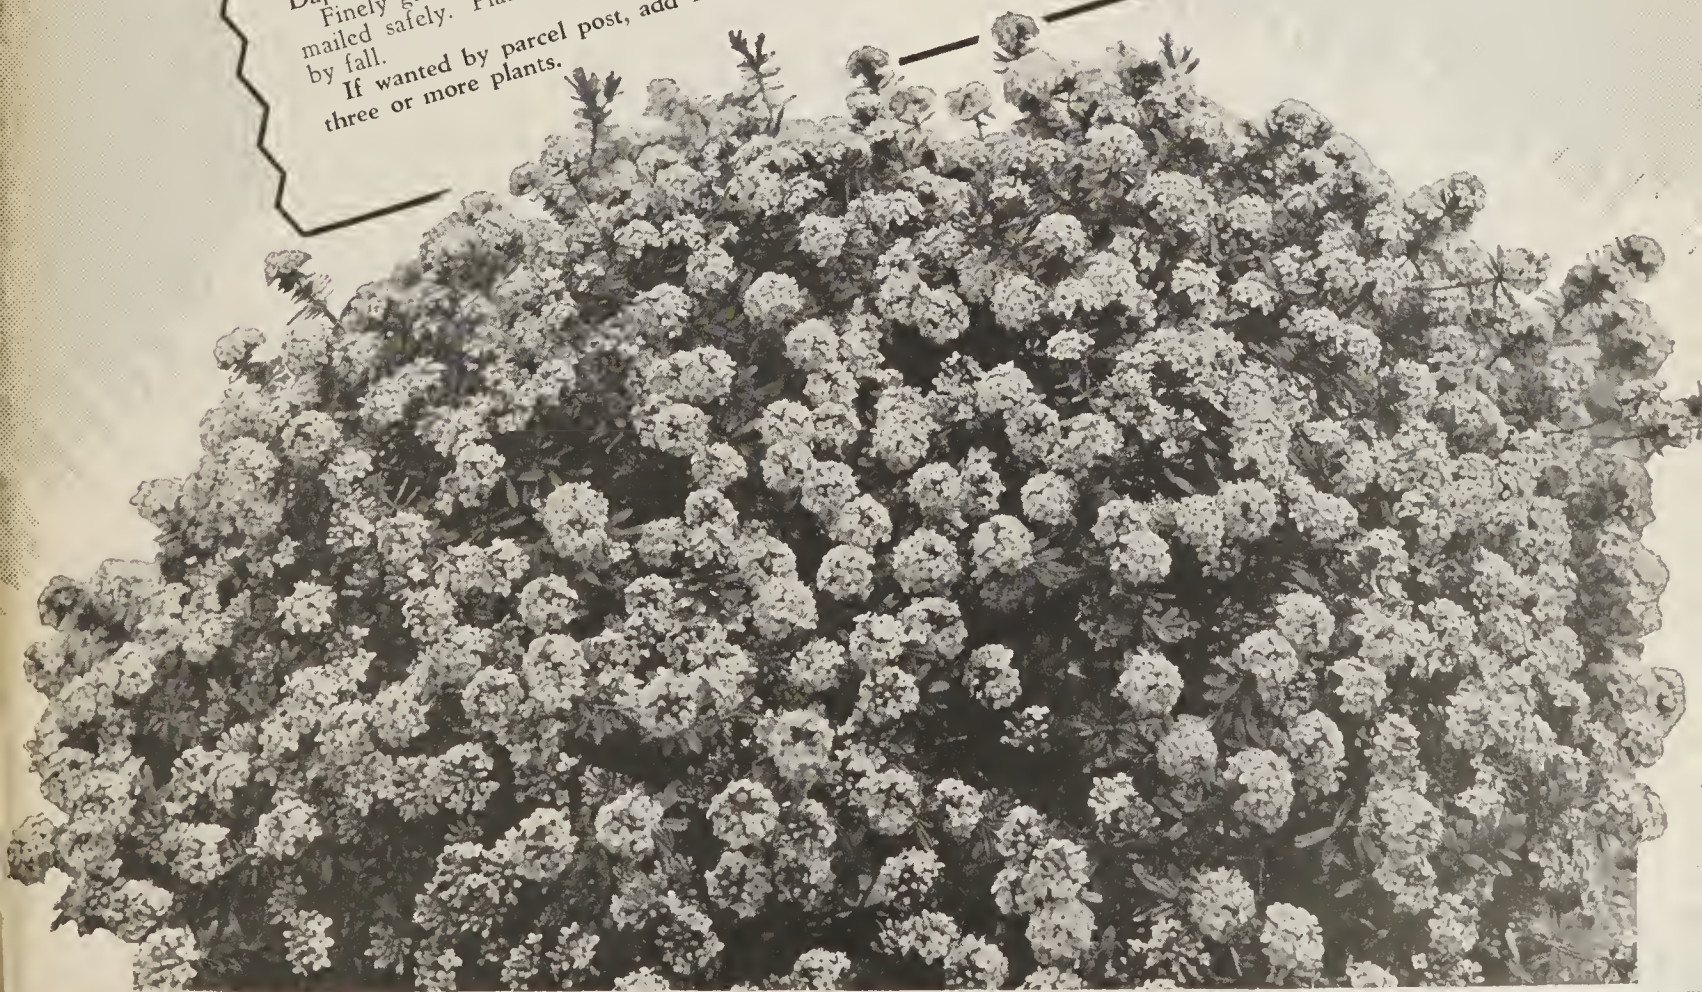

Daphne Cneorum. 9 to 12 in., \$1.25 each; 3 for \$3.25; \$12.00 per doz.

These are large, balled and burlapped plants of the finest quality and cannot be mailed. All orders for this superlative grade will be shipped by express.

Daphne Cneorum. Mailing size, 35c each; \$3.00 per doz. Finely grown 6- to 8-inch plants which are not too heavy to be mailed safely. Planted in good soil they will make full size plants by fall.

If wanted by parcel post, add 15c for single plants, 10c each for three or more plants.

1937-

ELLIOTT NURSERY COMPANY
EVANS CITY, PENNSYLVANIA

New Hybrid Korean Chrysanthemums

THESE new Hybrid Korean Chrysanthemums are better than the older types because they are hardier, more beautiful in color, earlier, easier to grow, and more profuse in blooming. The lovely new pastel shades, which defy description, suggest the Gerbera in their daintiness. Cut with short stems they make charming table decorations, while the full spike, 2 feet or more long, make glorious bouquets. As garden flowers they have no equals.

The parent strains of these gorgeously beautiful new Chrysanthemums are natives of Korea, which is one of the coldest countries in the world. As a consequence, they are much hardier and will stand much more abuse than the older types of Chrysanthemums.

Apollo. Superb sparkling combination of bronze, red and gold, suffused with glowing salmon. Single flowers, 2 inches across, produced in immense sprays.

Daphne. An exquisite blending of daphne-pink, with an underlying sheen of lilac-rose, enhanced with prominent golden stamens in the center. Sprays of single flowers, 3½ inches in diameter.

Fortuna. Glorious, brilliant flowers colored oxblood-red 4 inches in diameter. The secondary petals are curly and the plants extremely vigorous. A new and stunning creation.

Mars. Striking deep amaranth-red, changing to wine-red, overlaid with velvety sheen.

Mercury. Single, 3-inch flowers open bronze-red and change to coppery bronze as they mature. The lovely graceful sprays when cut keep two to three weeks.

Psyche. The newest pink variety with flowers 5 inches in diameter, colored the cleanest, most brilliant shell-pink.

Any of the above varieties: 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post, add 10c for each 3 plants.

Hybrid Korean Chrysanthemums

Shasta Daisy, Avalanche

SHASTA DAISY (Chrysanthemum Maximum)

These are improvements on the famous Shasta Daisy first created and introduced by the late Luther Burbank. The Daisy-like flowers, measuring between 3 and 4 inches in diameter, are of the purest white and borne on long stems. In addition to their garden value these Daisies are universally considered the finest possible plants for cut flowers.

Arcticum (Arctic Daisy). This variety brings tremendous quantities of flowers from September to November and the flowers are slightly tinged with rose. 3 for 75c; \$2.25 per doz.

Avalanche. Incomparably the finest of all the Shasta Daisies. Tremendous flowers, 4½ to 5 inches in diameter, of the purest glistering white, blooming all summer and fall. 3 for 75c; \$2.25 per doz.

White Swan. A new, double Shasta Daisy and a truly great creation. It produces solid double, pure white flowers on 2-foot stems. The flowers, some 3 inches in diameter, are produced in immense quantities. 40c each; \$4.00 per doz.

If wanted by parcel post, add 13c for each 3 plants.

Hardy Pompon CHRYSANTHEMUMS

CHRYSANTHEMUMS are the last plants to bloom in the fall and make the garden glow when there are no other flowers to be had. No other class of plants give such a wide range of color—white, yellow, bronze, scarlet, crimson, with innumerable intermediate softer tones. In masses they are particularly effective, while scattered clumps enliven the whole garden. Chrysanthemums in the garden mean flowers a month after your neighbor has none.

The Four Newest Pompon Chrysanthemums

Annie Fletcher. Gorgeous, clear yellow flowers borne on stately, erect stems produced in tremendous quantities and blooming the first of October. Unlike many Chrysanthemum varieties, the foliage is good and the fine leaves cover the entire stem throughout the growing season. A truly splendid variety.

Grenadier. Glowing clusters of crimson-red flowers $3\frac{1}{2}$ inches in diameter. Each separate flower has a golden tint on the petal reverse to make a marvelous contrast with the bright crimson of the main flower. This variety produces flowers in tremendous masses and in full bloom is glorious beyond description.

Murillo. The newest and beyond question the finest pink Chrysanthemum. The flowers, about 3 inches in diameter, are colored the loveliest and richest possible old rose.

September Charm. The outstanding white variety and a real improvement over what has gone before. The individual flowers measure $3\frac{1}{2}$ inches across and the color is the clearest, cleanest white. The plants grow compactly and when in full bloom resemble huge balls of snow.

Any of the above varieties: 3 for \$1.00; \$3.00 per doz.

A. Barham. Gorgeous and outstanding orange-bronze flowers 3 inches in diameter. Absolutely the best of its color, says Mr. Elliott.

Aladdin. The newest of the Chrysanthemums, finer than anything which has preceded it. Beginning in July the flowers appear in an endless procession until frost. Its lovely color resembles that of the famous Talisman rose, being lovely golden bronze stained apricot, light red and damask-pink.

Crimson Splendor. Magnificent masses of rich crimson-maroon flowers, intensified with deep garnet tones, golden yellow center. Each flower is 4 inches in diameter.

Granny Scoville. Flowers $4\frac{1}{2}$ inches in diameter colored a warm coral-bronze that fairly glows. Mr. Elliott maintains that this is the finest of all the Chrysanthemums.

Indian. One of the older sorts which has held its place because of its superior qualities. The large, shaggy flowers are a lovely coppery red shade which has a universal appeal. So far nothing even as good in its color has been developed.

Jean Treadway. Lively sparkling pink flowers over 3 inches in diameter with a darker rose-pink center.

Lillian Doty. This large, perfect, bright pink Chrysanthemum is still the first choice of the professional florists. Though we have had it for 20 years or more, its superior has not yet been created.

Peggy Ann Hoover. New and distinct. The color is a clear lilac-pink and the flower shape which resembles a Show Dahlia is entirely different in form from any other Chrysanthemum.

Pink Cushion. Absolutely the finest pink Chrysanthemum. The color is beautiful; the flowers come continuously throughout the entire fall and the plant is completely covered. Nothing equals it.

Ruth Cumming. Rich reddish bronze and terra cotta. Exquisite.

Tassiva. The finest white Chrysanthemum. Flowers completely cover the entire plant.

Varsity. Altogether the finest and most desirable of the yellow Chrysanthemums.

Vivid. The color closely approaches that of the American Beauty Rose. A shade new to the Chrysanthemums.

Any of the above varieties: 3 for 75c; \$2.50 per doz.

Pompon Chrysanthemums

If wanted by parcel post, add 15c for each 6 plants.

Oriental Poppies

"I REMEMBER well the first time I saw an Oriental Poppy. I was a boy then, and it excited me wonderfully, and I thought it was the most remarkable flower in the world. And now, after 50 years have gone by, and I have seen all the known flowers of the world, I am still of the opinion that it is wonderful; one of the most striking and effective perennials in cultivation." Our founder, Mr. J. Wilkinson Elliott, wrote this 50 years ago and it is still true. One who has not seen the blazing beauty of the Oriental Poppies has not yet seen a garden.

We grow the finest varieties in cultivation. They are:

Brightness. A new and remarkably vivid orange-scarlet Poppy with beautifully crimped petals gilded with glistening gold. 3 for 75c; \$2.50 per doz.

Cerise Beauty. Very large, bright pink flowers with a purple blotch. 3 for 75c; \$2.50 per doz.

E. A. Bowles. A new Poppy with perfectly gorgeous apricot-shell-pink flowers 7 inches in diameter. An improved Mrs. Perry with better foliage and more and better blooms. 75c each; \$7.50 per doz.

Grand Mogul. A splendid large brilliant red variety. The color is so brilliant as to be almost blinding in the sunlight. 3 for 75c; \$2.50 per doz.

Lula A. Neely. This is the newest of the Oriental Poppies and is so superior to anything which has preceded it that it becomes by comparison the outstanding garden plant. The color is a brilliant oxblood-red and does not fade. The tremendous, gorgeous flowers are borne on strong, erect stems. 3 for \$1.20; \$3.50 per doz.

Olympia. In Olympia we have at last a true double Poppy. The color is a brilliant, vivid flame-scarlet overlaid with golden salmon. The double flowers are the earliest to bloom and are produced in tremendous quantities. 3 for 70c; \$2.25 per doz.

Perry's White. The most startlingly distinct Poppy variety and one of the world's outstanding flowers. Tremendous blooms of the purest satiny white with a crimson blotch at the base. Grown adjacent to the colored sorts, the effect is really breath-taking. 3 for \$1.50; \$5.00 per doz.

Oriental Poppy, Lula A. Neely

Princess Ena. Princess Ena is the famous tulip-flowered Poppy for which we have so many calls by persons who do not know its name. The tulip-shaped flowers are blazing orange-salmon. 3 for \$1.50; \$5.00 per doz.

Wunderkind. A perfectly marvelous new Oriental Poppy with tremendous flowers 10 inches in diameter, colored the loveliest and most brilliant carmine-pink. The outstanding Poppy creation of all time. No other Poppy flower equals it in size and no other Poppy has as fine a color. \$1.00 each; \$10.00 per doz.

Oriente. Tremendous cup-shaped blooms of the brightest, most vivid crimson-scarlet. 3 for 65c; \$2.00 per doz.

If wanted by parcel post, add 13c for each 3 plants; 27c per dozen plants.

Grenadin Carnation

Hardy CARNATIONS

The Carnation flowers which you buy from your florist are tender plants which must be grown in a greenhouse. For years there has been a persistent demand for hardy Carnations for garden use and the plant breeders have answered the demand, giving us four new creations. If the flowers are cut off, the plants will produce Carnations for you all season. The flowers resemble the florists' Carnation and are very lovely.

Crimson King. The gorgeous new crimson Carnation, dazzling in color and the finest of all the Carnations. 3 for \$1.00; \$3.00 per doz.

Grenadin Pink. The lovely new pink Carnation. 3 for 75c; \$2.00 per doz.

Grenadin Red. The beautiful new red Carnation. 3 for 75c; \$2.00 per doz.

Grenadin White. The stunning new white Carnation. 3 for 75c; \$2.00 per doz.

If wanted by parcel post, add 12c for each 3 plants.

JAPANESE WINDFLOWER

(*Anemone Japonica*)

COMING into bloom the last week in August and lasting until cut down by heavy frost in November blooms the glorious Japanese Windflower. The lovely flowers are about the size of a dollar and are borne in tremendous profusion on stems $2\frac{1}{2}$ to 3 feet tall. The flowers may be single, double or semi-double and the colors white, pink or red. The Japanese Windflowers not only create the finest imaginable effects in the September garden but are the finest of all possible cut flowers. They have long been a favorite of Mr. Elliott's and when he was practicing landscape architecture he never failed to include them in substantial quantities in every garden he designed.

The Japanese Windflowers are among the truly outstanding perennials.

Alba. Single flowers of the purest, cleanest white with a rich yellow center. 3 for 85c; \$2.50 per doz.

Alice. A lovely new semi-double pink Windflower which Mr. Elliott personally considers about the loveliest thing he has ever seen in years. Furthermore, this variety is altogether the best and strongest grower. The flowers when first opening have the form of a rose. As they expand the shell-like silvery pink petals become suffused with bright carmine and show a lovely lilac center. 3 for \$1.00; \$3.00 per doz.

Buhler Kind. A new double white Windflower blooming several weeks earlier than the older sorts and having larger, finer, purer, double white flowers. 3 for \$1.00; \$3.00 per doz.

Kriemhilde. Tremendous quantities of large, double flowers colored a rich, dark pink. 3 for \$1.00; \$3.00 per doz.

Prince Henry. A magnificent new Windflower bearing gorgeous, full double red flowers which bloom much earlier than the other sorts. 3 for 85c; \$2.50 per doz.

Queen Charlotte. One of the most splendid of the Windflowers and the most lovely of all flowers. Immense quantities of broad and perfectly formed semi-double flowers with the color of the famous pink La France rose. 3 for 85c; \$2.50 per doz.

Richard Ahrends. An exquisitely lovely Windflower with large, splendid single flowers colored shell-pink and overlaid with a lilac bloom. 3 for 85c; \$2.50 per doz.

Rubra flora plena. Tremendous quantities of double flowers colored the loveliest rose-pink. Produces more bloom than any other variety excepting September Charm. 3 for 85c; \$2.50 per doz.

Anemone, Richard Ahrends

September Charm. One of the newest of the Windflowers and one which produces more blooms for a longer time than any other. Indeed, there is hardly a plant of any kind which will produce the tremendous mass of flowers in your garden as will September Charm. The flowers, 2 inches or more in diameter, are colored lovely, delicate silvery pink shaded with rose and mauve, and are lovely beyond description. 3 for \$1.00; \$3.00 per doz.

Whirlwind. Exquisite double, white flowers in the greatest profusion. Whirlwind is Mr. Elliott's personal choice among all the Windflowers. 3 for 85c; \$2.50 per doz.

If wanted by parcel post, add 13c for each three plants.

GLOBE FLOWER (*Trollius*)

These lovely Buttercup-like flowers are first produced in May. If growing conditions are normal they may produce flowers during the entire summer. If September should be cool and moist a third crop may develop, which will remain until frost. Professional landscape architects are unanimous in declaring the Globe Flowers to be the finest and most practical plant in existence to say nothing of being one of the loveliest.

Europaeus. Glorious blooms 2 inches in diameter colored waxy lemon-yellow.

Gold Quelle. Large, globe-shaped flowers colored lovely deep yellow.

Ledebouri. This is the latest to bloom and the magnificent flowers are colored very deep orange. Mr. Elliott's personal favorite.

Meteor. The lovely deep orange flowers are unusually large.

Salamander. A lovely new variety with large open flowers colored orange. The very first to bloom.

T. Smith. The newest of the Globe Flowers and probably the loveliest. The color is light yellow, the palest of all the *Trollius*. A most prolific variety.

All varieties listed above: 3 for \$1.10; \$3.25 per doz.

If wanted by parcel post, add 19c for each 3 plants, 48c per dozen.

Trollius Europaeus

JAPANESE IRIS

JAPANESE IRIS are incomparably the loveliest of all the Iris as anyone who has seen them readily admits. Furthermore, they are quite the most satisfactory plants ever planted in a garden. Tall and stately with fine foliage and habit, they bloom in late June and July when all other Iris, and most other flowers, are through for the year. The plants, which will grow in any soil, are literally as hardy as apple trees. These incomparably gorgeous and lovely garden plants have all of the virtues and none of the vices ordinarily found in the plant kingdom.

Astarte. A heavy double flower colored lovely dark violet.

Betty Holmes. The flower is of tremendous size, double, perfect in form and of a pure, glistening white. Incomparably the finest white Iris in existence. 3 for \$1.50; \$5.00 per doz.

Blue Giant. A tremendous double flower with petals 9 inches long. Above the glistening golden base of the flower rises the great mass of lovely blue. 3 for \$1.50; \$5.00 per doz.

Elbrus. A glorious new Iris producing enormous double flowers colored the loveliest clear lavender we have ever seen. Indeed, the color is so clean and clear that it could almost be described as pure azure-blue. A truly marvelous new creation. \$1.50 each.

Hercule. Gorgeous double flowers colored the cleanest, clearest lilac-blue.

Light-in-the-Opal. After more than a century of effort the plant breeders have finally succeeded in producing a true pink Iris. And what an Iris it is! The flower is 8 or more inches in diameter, perfect in form and substance, and above the golden throat surrounded by a halo of blue rises a cloud of marvelous clear pink. Truly the wonder flower of the year. \$2.00 each.

Margaret. The flower is unusually large and massive, fine in form and substance and triple instead of double. The color is a deep, rich blue with slight shadings of violet. 3 for \$1.50; \$5.00 per doz.

Purple and Gold (Koko-No-Iro). Enormous, double, rich purple colored flowers with white petaloids tipped violet.

Rose Anna. The immense, double flowers are colored delicate ivory-white and are heavily veined with ruby-red and have a conspicuous bright yellow center.

Rose H. Scheepers. Tremendous, double flowers of lovely delicate mauve-grey overlaid with blue. 3 for \$1.35; \$4.50 per doz.

Subotai. Above the clean, clear yellow center of the enormous flower rises a cloud of rich rose-red.

Waves-Under-the-Moonlight (Gekka-No-Nami). Glistening white double flowers embellished with creamy white stigmas. Earliest to bloom and very choice.

Price, except where noted:

30c each

3 for 75c

\$2.50 per doz.

Collection: 1 each of the Twelve Varieties **\$6.55**

Mixed Seedlings.

\$1.55 per doz.

If wanted by parcel post, add 10c for each 3 plants, 20c per dozen plants.

NEWER BEARDED IRIS

THE newer varieties of Bearded Iris are so superior to the kinds in use even ten years ago that by comparison they make these old timers look funny. Just as you would laugh in tolerant amusement at the spectacle of a 1914 motor car, so does the horticulturist laugh when he sees a 1914 Iris. Both were good in their day but their day has long passed and they have now no asylum save as specimens in a museum for the instruction of our descendants.

The modern garden demands modern Iris. The varieties listed below are truly modern Iris—varieties so fine and lovely that the plant breeder has yet to produce their equal.

Ambassadeur. A fascinating and indescribably lovely smoky, velvety purple flower with velvety purple-maroon falls; beards and style yellow. A truly regal flower on 48-inch stem. 20c each; \$2.00 per doz.

Aurea. The largest and finest of the yellow Iris. The flowers are colored pure golden yellow.

Fairy. A tall variety giving the effect of pure white. Examined closely the flower is very delicately bordered with pale blue. An exceedingly delicate and lovely variety. 20c each; \$2.00 per doz.

Gold Imperial. A glorious chrome-yellow flower with a conspicuous orange beard. The color is remarkable for its clearness and pureness and the plant and flower have a rare finish and form. 18c each; \$1.80 per doz.

Grevin. The flowers are exceedingly large and the standards are violet suffused yellow; the falls darker violet striped yellow at the base. An unusual and lovely color combination.

Isolene. Silvery rose flowers flushed bronze. The falls, sharply reflexed, are Chinese violet-mauve with russet tints and the beard is gleaming golden yellow. The flowers are sweet scented.

Lohengrin. The flowers are rich silvery lilac which show a delightful pink tone in the morning and again in the late afternoon after the sun loses its power.

Lord of June

Ambassadeur

Lent A. Williamson. Campanula-violet-blue flowers with falls of rich, royal purple and a gleaming yellow beard. Tall and distinguished.

Lord of June. Broad flowers of lovely light chicory-blue; falls rich violet-purple with haft marked with widely spaced reticulations of old gold. Giant among the Iris. 18c each; \$1.80 per doz.

Mme. Chobaut. The flowers are lovely, rich cream shaded buff and pink and edged with lilac. The falls are white edged violet with a brilliant orange beard. Sweet scented flowers.

Morning Splendor. In full bloom the effect of the blending of the colors of this variety is a rich, glowing ruby-crimson. The tall, finely branched stems carry unusually large flowers, the standards of which are colored petunia-violet and the falls rich raisin-purple. 25c each; \$2.50 per doz.

Pallida Dalmatica (Princess Beatrice). This is probably the only one of the older Iris which deserves a place in the modern garden, since it is still one of the loveliest of all the Iris. The unusually large flowers are a clear lavender-blue shading to silvery blue at the base and they are sweetly scented. The flower stalks are over 3 feet high.

Pioneer. A velvety red-purple flower. There is, of course, no pure red in the Bearded Iris. However, Pioneer is the finest of the so-called reds. 20c each; \$2.00 per doz.

Queen Caterina. If you were to ask Mr. Elliott which in his judgment is the loveliest of all the Bearded Iris, he would tell you most emphatically Queen Caterina. His customers agree that his judgment is sound. No one who visits our nurseries when the Iris are in bloom ever fails to select Queen Caterina as his first choice. It is described as lovely clear orchid-purple veined with brilliant gold and having a bright, vivid orange beard, but no description can do it justice.

Shekinah. A true yellow Pallida and the first of the type to be produced. The flower is a beautiful shade of pale yellow shading to amber in the throat and the beard is lemon-yellow. Decidedly an unusual flower and a very lovely one.

COLLECTION

1 each of the 15 varieties \$2.25
3 each of the 15 varieties 6.25

Price, except where noted,

15c each
3 for 30c
\$1.10 per doz.

If wanted by parcel post, add 10c for each 3 plants, 20c for a dozen plants.

PYRETHRUM *(Painted Daisy)*

THE Pyrethrums are so easily cultivated that they are recommended to all who possess a garden. They are perfectly hardy and absolutely invaluable for cut flowers through the summer and autumn months. The flowers are bright and elegantly borne on long stems; most convenient for vase decoration. The Pyrethrums are veritable colored Marguerites and possess a range of color and hardiness that the Marguerites might envy in vain. Nothing can surpass the Pyrethrums for profusion of flowers; flowers succeed flowers without stint, and the blossoms are not injured by storm or sun. Pyrethrums grow freely in any ordinary garden soil, and in order to secure size, brilliancy and number of flowers, plenty of ordinary well-rotted manure may be added to well trenched, well-drained soil, and plenty of water may be given when they are in bud in the dry summer months. Our plants are of the famous Kelway Strains.

Atrosanguineum. A new Painted Daisy with larger flowers than the older type. There are no whites or pinks in this new race; the colors are all shades of vivid and brilliant red and crimson. Introduced for the first time in the United States, we know it will achieve the same tremendous success it had in England last year. 3 for \$1.00; \$3.25 per doz.

Roseum. All colors mixed. Rising above the lovely fernlike foliage stand the beautiful flowers, ranging in color from pure white to pink, to the deepest crimson. 3 for 75c; \$2.50 per doz.

Bellis Perennis—English Daisy

Pyrethrum Roseum

The New BABY'S BREATH *(Gypsophila, Bristol Fairy)*

Gypsophila, Bristol Fairy is incomparably the finest of the Baby's Breath. It is truly a wonderful introduction producing large panicles of double white flowers on which the individual blossom is larger than anything that has gone before and the color is the purest white. It flowers continuously and profusely throughout the season. 40c each; \$4.00 per doz.

The New PINK BABY'S BREATH *(Gypsophila Bodgeri)*

Excepting that the flowers are pink instead of white and the plant slightly smaller, the pink Baby's Breath is like the white Bristol Fairy. The pink color is lovely and the flowers are produced all summer. 40c each; \$4.00 per doz.

ENGLISH DAISY *(Bellis Perennis)*

The double-flowered English Daisies are the best known and the best loved of all the spring blooming plants. The bloom is so prolific as to virtually conceal the plant. The plants are adaptable for almost any garden use: edging, rockeries, carpeting bulb beds, etc. We grow only the new Monstrosa strain which produces larger flowers than the older types and more of them. **Monstrosa alba.** The new monster white double English Daisy. **Monstrosa rosea.** The new monster pink double English Daisy. **Monstrosa rubra.** The new monster red double English Daisy.

All: 3 for 65c; \$2.00 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen plants.

Gypsophila, Bristol Fairy

FOXGLOVES (*Digitalis*)

FOR picturesque stately beauty Foxglove is not to be surpassed by any plant. In small groups in the garden it is most lovely. Planted among shrubs or naturalized on the edge of the woods in the orchard, or along brooks the effect is stunning. For over a century it has been the most popular plant in English Gardens and its value is now being appreciated in America.

The Perennial Foxglove

The Shirley. A magnificent strain of perennial Foxgloves created by the Rev. W. Wilkes in England, which produces plants 6 to 7 feet tall with gorgeous flower heads over 3 feet long. The individual flowers are colored white, pink and rosy red attractively dotted with chocolate and crimson. A magnificent and permanent addition to any garden. 3 for 85c; \$2.50 per doz.

Biennial Foxgloves

Lutzi Hybrids. A new race of Foxgloves bearing heavy spikes literally covered with the most gorgeous salmon-rose bells. Superior to anything which has preceded it and a truly splendid creation. 3 for 75c; \$2.25 per doz.

Rosea. A lovely rose-flowered Foxglove. 3 for 75c; \$2.25 per doz.

Mixed. 3 for 75c; \$2.25 per doz.

Long Spurred COLUMBINES (*Aquilegia*)

For centuries before the Long-Spurred Hybrid Columbines were thought of, *Aquilegias* were loved and cherished as being among the most valuable of all garden plants. Now that the dreams of the plant breeders have come true and the Long-Spurred Hybrids are an accomplished fact, the *Aquilegias* are even more popular than they were with our ancestors. Without the modern Columbine, it wouldn't be a garden.

Alba grandiflora. A white Long Spurred Columbine.

Chrysantha. Beautiful golden yellow flowers produced for two months or more.

Mrs. Scott Elliott Hybrids. Absolutely the finest and loveliest strain of Long Spurred Hybrids in existence.

Any of the above varieties:
3 for 75c; \$2.25 per doz.

The New Pink COLUMBINE

Rose Queen. A new and very lovely pink Columbine. A pure color heretofore never obtainable. 3 for \$1.00; \$3.00 per doz.

The New Red COLUMBINE

Crimson Star. A new Long-Spurred Columbine, the flowers of which are colored a brilliant, dark crimson. This is a color never before available in Columbines. The plant won the highest award at the recent Royal Horticultural Society's Show in England. 3 for \$1.00; \$3.00 per doz.

If wanted by parcel post, add 13c for each three plants.

Shirley Foxgloves

Aquilegia, Mrs. Scott Elliott Hybrids

GAILLARDIAS

WE consider the Gaillardia the most beautiful and desirable hardy plant in cultivation, and believe our strain to be the finest extant, and we offer these plants for less than they have ever been sold for, either in this country or Europe. The Gaillardia is, of course, simply invaluable as a cut flower, on account of its being so lasting when gathered and so brilliant and beautiful. The gay blossoms are obtainable in perpetual profusion from June to November, and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated. Some of the varieties of this improved strain measure fully five inches in diameter.

Improved Giant Hybrids. Since we have always been most enthusiastic in recommending the older types of Gaillardia, we hardly know how to explain our appreciation of this new strain. Emphatically it is an improvement, no doubt whatever about that. The flowers are larger and there are more of them, in the loveliest shades of orange, red and yellow. Like the older types they bloom perpetually from June to November and do not seem to mind drought and other adverse weather conditions, but continue to bloom when other plants curl up and quit. 3 for 75c; \$2.50 per doz.

Oculata. A new tall Gaillardia producing flower stems $2\frac{1}{2}$ feet high crowned with the loveliest flowers colored bright golden yellow with deep rich maroon-red centers. 3 for 90c; \$3.00 per doz.

The King. This new variety produces truly enormous flowers, the largest Gaillardia flowers in existence. These tremendous flowers, measuring around 4 inches in diameter, are two-colored—centers of brilliant sparkling red, with edges of yellow and orange. 3 for \$1.00; \$3.25 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen plants.

Gaillardia, Improved Giant Hybrids

GEUM Lovely tufted perennials producing a wealth of attractive flowers which bloom continuously from May to July. The plants grow about 18 inches high and are one of the finest of the garden plants and they may also be used in the larger rockeries. Among professional florists the Geum is in tremendous demand for cut flowers, being considered one of the finest of all hardy plants for this purpose. Try combining Orange Queen and Mrs. Bradshaw in one bouquet and you will know why.

Mrs. Bradshaw. Glorious double flowers colored a fiery red. 3 for 75c; \$2.50 per doz.

Orange Queen. Tremendous double flowers colored a most vivid, brilliant orange-scarlet. A new German creation which has taken Europe by storm and now offered for the first time in America. 3 for 85c; \$2.75 per doz.

If wanted by parcel post, add 13c for each three plants.

LINUM PERENNE

(Flax)

Linum perenne. Handsome plant with attractive feathery leaves blooming freely from May to August. The slender flower stems are about 2 feet high crowned with beautiful, pale blue flowers. 3 for 75c; \$2.50 per doz.

Linum alba. Identical with Perenne excepting that the flowers are milk-white. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants.

Geum, Mrs. Bradshaw

Linum Perenne

Hybrid Day Lily, Ophir

New Hybrid DAY LILIES

DR. STOUT of the New York Botanical Gardens has performed a horticultural miracle. The older Day Lilies were always among the loveliest and most fascinating plants in existence. Dr. Stout has taken these older varieties and by most careful hybridization and selection has created a new race of Day Lilies of indescribable beauty.

The only thing that prevents these new Day Lilies from being planted by the million is that there are not above five or six thousand in existence the world over. Last spring we were able to secure a small collection of these plants at a very special price, and always alert to give our customers the benefit of anything good that may be going, we grabbed them and as long as they last we will pass the saving along. Obviously these plants must be offered subject to prior sale, and we reserve the right to stop sales at any time and without notice.

Cinnabar. Delicate brownish red sepals and petals glistening golden; throat cadmium-yellow, outer half of petals sprinkled with rich fulvous red. Bloom spread 5 inches. Regular price, \$3.00. Special price, 75c each.

Ophir. Dark golden yellow flowers 5 inches across. One stem frequently carries twenty-five or more of these giant golden Lilies. Price, \$2.00 each.

Sir Michael Foster. The clear yellow flowers with long, trumpet-shaped throats measure from 5 to 6 inches across. Regular price, \$1.00 each. Special price, 75c each.

Vesta. Deep orange flowers with a glistening golden sheen. Regular price, \$3.00 each. Special price, \$1.00 each.

Wau-Bun. Large flowers of cadmium-yellow, slightly sprinkled with traces of fulvous red. Flowers glisten as though made of gold. Regular price, \$3.00 each. Special price, \$1.50 each.

Standard Day Lilies

Aurantiaca Major. Sweet scented flowers of great size, colored dark, glowing orange. For years the personal favorite of Mr. Elliott. 3 for 75c; \$2.50 per doz.

Kwanso Double. Large, double flowers colored rich golden bronze. Incomparably the finest of the double varieties. A truly worthy variety. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen.

TUFTED PANSIES

The Tufted Pansies are hybrids of Pansies and *Viola Cornuta*, and are quite distinct from Pansies in habit and coloring, and we think far more beautiful. The flowers are smaller, but unique in coloring, and the plants spread from the roots like violets, making them true perennials. They are perfectly hardy, enduring the extremely cold weather of 1933-34 in an open border without protection. They are immensely popular in England and Scotland, where they are generally used for bedding and table decorations, and nothing can be more charming for either purpose. We have always admired these flowers in Scotland, but were not certain that they would thrive in this climate, but after testing them for years in our garden, we know that they will do as well as they do abroad. We have had a splendid lot of plants grown from the best collections in Scotland. They can be planted in the summer, fall or spring.

Admiration. The flowers are almost as large as the annual Pansy, and are colored the loveliest possible rosy purple.

Apricot Queen. Incomparably the finest of the apricot shades.

Arkwright Ruby. Bright ruby-red flowers. The finest of all the red sorts.

Jersey Gem. This *Viola* has everything. It blooms from April until snow. Its flowers, which are colored rich dark violet, are borne on hardy stems and have a most delicious fragrance. It is perfectly hardy and will grow anywhere. Jersey Gem is incomparably the finest Tufted Pansy in existence.

Primrose Dame. The finest rich golden yellow.

Rose Queen. Lovely, bright rose-pink flowers in bloom all season. Undoubtedly the best pink.

White Perfection. Absolutely the finest, large-flowered pure white.

All the varieties named above: 3 for 60c; \$2.00 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen.

Jersey Gem Tufted Pansies

Hardy AGERATUM

Eupatorium Coelestinum

Of the hundreds of varieties of plants in our display gardens none are so popular as the so-called Hardy Ageratum. Almost without exception every customer who calls here and sees it in bloom orders it. Its color, a lovely light purple, is almost identical with the famous annual Ageratum, but unlike its namesake, it is perennial and hardy, standing in our gardens temperatures down to thirty degrees below zero. It is even a more prolific bloomer than the tender Ageratum and develops literally myriads of its lovely flowers. A truly wonderful border plant, which is exceptionally fine for cut flowers. 3 for 60c; \$2.00 per doz.

SEA LAVENDER

Statice Latifolia

The famous Baby's Breath is the most popular plant in the world for embellishing bouquets and is used literally by the millions. Splendid as the Baby's Breath is for this purpose, the Sea Lavender is even better. If the amateur gardeners knew what we professionals know, the nurseries of America could not supply the demand for this great plant. Its lacy, delicate, lovely lavender-blue flowers are incomparably the finest bouquet embellishment in existence; besides the plants are indescribably lovely in the garden. 3 for 75c; \$2.50 per doz.

Statice dumosa. The new Sea Lavender which created a tremendous sensation in English gardens. The flowers are produced in dense cushions and colored a most exquisite, pure, cool silvery white. 3 for 85c; \$2.75 per doz.

Kansas Gay Feather

Liatris Pycnostachya

Kansas Gay Feather is one of the most interesting of all garden plants. It produces long, narrow spikes about four feet tall of lovely rich purple flowers blooming in mid-summer. Not only is it splendid in the garden, but, in addition, it is one of the loveliest and most effective of all cut flowers. Perhaps its most interesting and desirable feature, however, is its attraction for butterflies. When in bloom it would seem to attract all the butterflies from miles around and we have seen the flower spikes so covered with these lovely little creatures that it was impossible to determine which was the more beautiful, the flower or the fluttering iridescent color of the butterflies. We of the Elliott organization who are professional horticulturists, and often are more or less "fed up" with beautiful things, can still watch the lovely combination of flower and insect color with absorbed interest for hours. 3 for 75c; \$2.25 per doz.

If wanted by parcel post, add 13c for each 3 plants; 27c per dozen plants.

Hardy Ageratum

Statice Latifolia—Sea Lavender

Kansas Gay Feather

CORALBELLS (*Heuchera*)

Handsome plants with heart-shaped leaves, neat and compact, which may be used either in the perennial borders, flower beds or the rock garden. The lovely, graceful flowers are borne in panicles on 18-inch stems and are produced in profusion from June until September. The Coralbells also make one of the most satisfactory cut flowers in existence.

Heuchera Brizoides. Gorgeous, lovely, bright pink flowers and three times as many of them as the other varieties. 3 for 75c; \$2.50 per doz.

Heuchera Sanguinea. The flowers of this lovely variety are colored a shimmering coral-red. 3 for 85c; \$2.75 per doz.

Heuchera Splendens. These flowers are colored a most vivid, bright and brilliant scarlet-crimson. 3 for 75c; \$2.25 per doz.

MAYFIELD GIANT

The New Coreopsis

The older *Coreopsis Grandiflora* was absolutely indispensable both in the garden and for cut flowers. If one gardened at all one simply had to have it. Its reign is over now since it has been superseded by the new Mayfield Giant.

In addition to producing more flowers, Mayfield Giant produces flowers over 3 inches in diameter or more than twice as large as the old *Grandiflora*. In addition the lovely yellow color is even cleaner and more brilliant. 3 for 85c; \$2.75 per doz.

Coreopsis, Sunburst

SUNBURST

The New Double Coreopsis

A new *Coreopsis* and the first double to be created. Sunburst produces truly full double flowers which measure more than 2 inches in diameter. The color is the same clean, brilliant yellow as the color of Mayfield Giant. Sunburst flowers are sturdy and substantial and when cut they will keep in water for over a week. 3 for 90c; \$3.00 per doz.

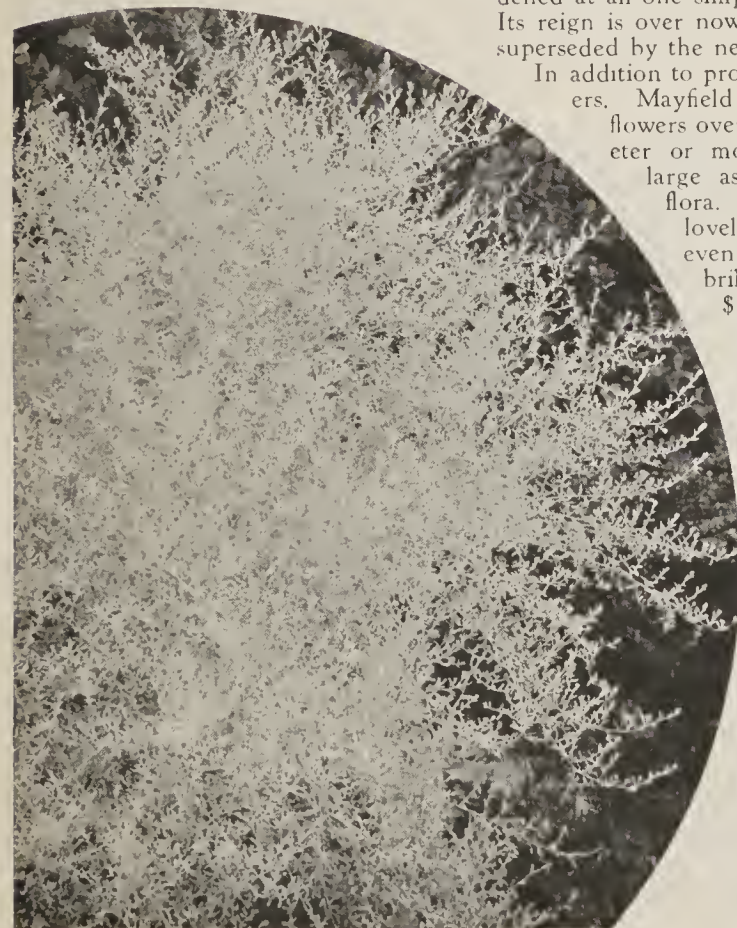

ARTEMISIA, *Silver King*

The startling new Southernwood and absolutely the best of the decorative plants. The white-leaved foliage makes the plant look as though it were made of frosted silver, which gleams in the sunlight, producing a color contrast which can be secured with no other plant. It makes the most wonderful bouquets either alone or in combination with other flowers. If cut just before the first frost and put in a vase without water, it will last for months throughout the winter. We can suggest nothing as useful either for the garden or for the house. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants; 27c per dozen plants.

Heuchera Sanguinea

Artemisia, Silver King

RED HOT POKER

(*Kniphofia*)

HANDSOME plants which produce tall flower spikes $3\frac{1}{2}$ to 4 feet high, projecting above a rosette of long, narrow, grassy foliage.

Kniphofia Pfitzeri. From August till October the plant produces long heads of rich, blazing orange-scarlet flowers; so brilliant that the spikes look literally red hot. The most remarkably conspicuous color it is possible to have in the garden. 3 for 90c; \$3.00 per doz.

Kniphofia, Perry's Hybrids. The colors of this new strain are more conservative and restrained, ranging from delicate light yellow to deep orange. The colors are remarkably pure and clean. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 15c for each 3 plants.

Kniphofia—Red Hot Poker

The BELLFLOWERS

(*Campanula*)

The Bellflowers are certainly the most romantic flowers in existence and probably the best known and most used. They are planted by everyone and planted literally by the millions.

Campanula Medium

Carpatica (Harebell). A splendid, compact, little perennial plant growing about 8 inches high. The lovely clear blue bells are held erect on wiry stems. The plant blooms continuously from June until October. Unsurpassed for the hardy border or rockery. 3 for 75c; \$2.50 per doz.

Latifolia. A beautiful perennial Bellflower growing about $2\frac{1}{2}$ feet and producing in July a heavy crop of beautiful blue, bell-like flowers. 3 for 75c; \$2.50 per doz.

Medium. The famous Biennial Canterbury Bell. No plant in the world is so well known or so widely planted. Wherever it will grow, in Europe, Asia, or the Americas, it is planted by the million and it deserves to be planted by the million, since no plants are more lovely. It is available in any one of four colors: blue, white, rose and lilac, as you prefer. It blooms in July when there is little else in the garden and in addition to its garden value is most desirable for cut flowers. 3 for 70c; \$1.75 per doz.

Medium calycanthema (Cup-and-Saucer Canterbury Bell). Different from the standard Canterbury Bell because at the base of each bell there is a large saucer which causes the flowers to appear twice as large as they otherwise would be. The loveliest of biennials and one of the loveliest flowers in existence. Available in pink, white and blue, or in mixture, as you prefer. 3 for 70c; \$1.75 per doz.

Rotundifolia (Bluebells of Scotland). This is the famous Bluebell of song and verse known by everybody. The plants are small, growing about a foot tall and covered in June with the famous blue bells which give it its name. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen plants.

Salvia Azurea

The BLUE SALVIA

(*Salvia Azurea*)

The famous blue Rocky Mountain Salvia, which grows 3 to 4 feet high and produces throughout August and September literally myriads of the loveliest sky-blue flowers. The flowers are shaped like the flowers of the common annual Salvia or Scarlet Sage. However, the plant is a true perennial and not an annual. 3 for 75c; \$2.50 per doz.

Salvia Pratensis. The newest hardy Salvia and one that is very fine. The flower stalks, which are 2 feet high, are produced from June throughout September. The color of the flowers is lilac-blue, very much darker than the sky-blue of the Rocky Mountain Salvia. The very long blooming season and the lovely color make this new Salvia the most desirable of plants. 3 for 75c; \$2.50 per doz.

LEOPARDBANE

(*Doronicum Excelsum*)

This lovely hardy plant has large yellow flowers 2½ to 3 inches across, which resemble the famous tender Marguerite of the florist shop. Unlike the Marguerite, however, the plant is hardy to at least thirty degrees below zero. The flowers are produced in the early spring. The plant is not only one of the finest in the perennial garden, but the flowers make very lovely bouquets. 3 for 85c; \$2.75 per doz.

ALPINE ASTERS

An exquisitely lovely race of semi-dwarf Asters growing about 8 inches high, hardy, and easy to grow, and equally at home in the flower garden or the rockery.

Alpinus. Gorgeous daisy-like flowers well over 2 inches in diameter. Bloom in May and June and colored the loveliest, most delicate, light blue. 3 for 75c; \$2.50 per doz.

Alpinus, Dark Beauty. The flowers are of the same size and bloom at the same time as Alpinus, but they are colored a rich, luscious dark blue. 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 13c for each 3 plants, 27c per dozen plants.

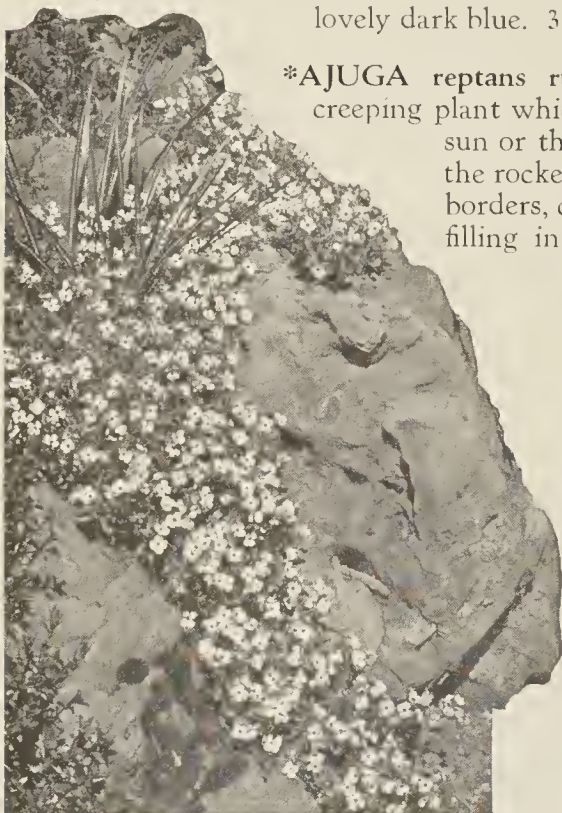

Doronicum Excelsum

Aster Alpinus

ACHILLEA ptarmica, The Pearl. Pure, double white flowers all summer. Indispensable for cutting. 3 for 75c; \$2.25 per doz.

ACONITUM Fischeri (Monkshood). While this plant will grow in the full sun, it has the additional advantage of succeeding in the shade or semi-shade, and may even be grown under trees. Furthermore, it blooms in September when flowers in the garden are getting scarce. It is a stately plant, growing 2½ to 3 feet tall, and the foliage is decorative and attractive. The color of the flower is a lovely dark blue. 3 for 85c; \$2.50 per doz.

Aubrietia, New Hybrids

***AJUGA reptans rubra (Bugle).** A dwarf creeping plant which will grow in either the sun or the shade. Indispensable in the rockery or for edging perennial borders, carpeting bare spots or for filling in where there is no room for larger plants. Ajuga grows about 4 inches high and the foliage has a lovely bronzy cast. The plant is covered with lovely deep purplish blue flowers in May and June. 3 for 75c; \$2.25 per doz.

ALYSSUM saxatile compactum (Basket of Gold). Great clusters of bright yellow flowers in the early spring. Specially lovely when planted with tulips. 3 for 75c; \$2.25 per doz.

Armeria Maritima Splendens

HARDY

ANCHUSA, Feltham Pride. The older Dropmore and Lissadell varieties of Anchusa make rather straggly, weedy plants, which, if it were not for the glorious, lovely blue color of their flowers, would probably not be tolerated in our gardens. Heretofore, we put up with them simply because their beautiful color had to be represented in any planting. This, however, is no longer necessary. The new Feltham Pride makes a compact, trim, handsome plant and the color of its flowers is the same glorious blue that made the older sorts renowned. 3 for \$1.20; \$4.00 per doz.

***ANTHERICUM liliastrium major (St. Bernard's Lily).** This lovely plant has narrow grassy leaves and the Lily-like flowers are borne in the most graceful sprays. It will grow in the full sun or the partial shade, but it should not be planted in the full shade. Cut, it makes lovely bouquets, either alone or in combination with other flowers. The flower spikes are 1½ feet tall and the lovely white Lily-like flowers bloom in May and June. 3 for 75c; \$2.25 per doz.

ARABIS alpina fl. pl. (Rock Cress). This lovely little semi-creeping plant is equally useful as an edging plant or for low borders or in the rockery. In the spring it is literally concealed with masses of lovely double, white flowers which are large enough to cut for small bouquets and which last a long time when cut. 3 for 75c; \$2.50 per doz.

***ARMERIA maritima splendens (Sea Pink).** A dainty, dwarf perennial plant with grassy leaves. The tufted plants grow about six inches tall and are covered with lovely pale pink flowers in May and June. Indispensable in the rockery. 3 for 65c; \$2.00 per doz.

Ajuga Reptans

PERENNIALS

ARMERIA, New Hybrid Sea Pink. Crowning the tops of strong, upright stalks 16 inches high, are the gay flowers of this, the newest of all Sea Pinks. The colors are a myriad of pinks of all tones, coral-reds, light reds and dark reds, together with violet and purple. The newest sensation of the English gardens and certain to be equally popular in America. 50c each; \$5.00 per doz.

ASTILBE Arendsi, Vesta. Exceedingly graceful and lovely plumes of lilac-rose spikes from 3 to 5 feet tall. 3 for 90c; \$3.00 per doz.

A., Thunbergi Moerheimi. A new variety introduced from Europe. Panicles are extremely large, but flowers are quite small and pure white. 3 for \$1.20; \$4.00 per doz.

***AUBRIETIA, New Hybrids.** A new strain of very dwarf plants with evergreen foliage, which blooms freely during the spring months from April until July. They may be used for carpeting beds, planted with spring bulbs, for edging, and are particularly useful in the rock garden. The flowers are light blue, some tinged rosy lilac, others purple. 3 for 75c; \$2.25 per doz.

BOLTONIA latisquama (Starwort). A large perennial plant related to the Asters. It grows about 5 to 6 feet tall, is most graceful in habit and in the fall is covered with the loveliest lavender-pink flowers imaginable. 3 for 75c; \$2.50 per doz.

CERASTIUM Biebersteini (Snow-in-Summer). A low-growing plant with silvery white foliage which remains handsome throughout the season. Indispensable for carpeting or edging borders and beds. Splendid among tulips and other bulbs. The flowers are white. 3 for 75c; \$2.25 per doz.

CHELONE barbatus Torreyi. This lovely and charming perennial produces flower spikes about three feet tall crowned with the brightest orange scarlet flowers. An outstanding garden plant which is also a favorite for cutting. 3 for 75c; \$2.25 per doz.

***CHERIANTHUS Allioni.** A hardy Wallflower, the flowers of which are colored a dazzling, fiery orange and are borne on stems about a foot high. In addition to their gorgeous color, the flowers are deliciously fragrant. They bloom profusely during the spring and summer, often so profusely that they literally bloom themselves to death. 3 for 75c; \$2.25 per doz.

***DIANTHUS deltoides, Brilliant (Grass Pink).** Flowers of the most glowing brilliant crimson-red. 3 for 65c; \$2.00 per doz.

DIANTHUS plumarius (Grass Pink). A lovely and charming single pink with fringed petals. Flowers are all of light colors but vary greatly in markings so that hardly any two are alike. 3 for 65c; \$2.00 per doz.

DICENTRA spectabilis (Bleeding Heart). The Bleeding Heart is one of the plants known the world over wherever men and women garden. It is so popular that it is hard to imagine a garden without it. It was found in your great grandmother's garden and it will be found in the garden of your great granddaughter. It has finely cut, fernlike foliage and bears long racemes of graceful, heart-shaped, pink flowers. It will grow in the sun or in the shade. 3 for \$1.20; \$4.00 per doz.

Dianthus Deltoides

Helianthemum Mutabile

Cheiranthus Allioni

Hollyhocks, Emperor Hybrids

FILIPENDULA hexapetala fl. pl. Lovely plants of delicate fernlike foliage producing a dense head of double, pure white flowers in June, borne on 12-inch stems. 3 for 65c; \$2.00 per doz.

HELENIUM Hoopesi. The orange-yellow flowers with orange-yellow disc borne on long stems make this plant specially desirable for the garden or for cutting. 2 to 3 feet. May to September. 3 for 65c; \$2.00 per doz.

***HELIANTHEMUM mutabile** (Sunrose). A most dainty and lovely dwarf evergreen, shrubby perennial specially effective on dry banks or in rock gardens. The plants spread rather rapidly and keep up a succession of dainty rose-like flowers throughout the season. 3 for 65c; \$2.00 per doz.

***HOLLYHOCKS, Emperor Hybrids.** The Emperor Hybrids are the newest and loveliest things in Hollyhocks, which means that they are about the loveliest flowers in the world. The flowers measure 6 inches in diameter and the colors include every Hollyhock shade and tint. The petals are beautifully fringed and fringed and in the center is a rosette about 2 inches across. The individual flowers suggest a lovely crested Begonia. The new Emperor Hybrids have another advantage over the older types in that they

HARDY PERENNIALS — Continued

are also gorgeous cut flowers. The older Hollyhocks cannot so be used since the flowers wilt rapidly when cut. The new Emperor Hybrids, however, last a long while in water. As everyone knows, the older Hollyhocks produced a single spike of bloom, whereas these new Emperor Hybrids are branching. The Emperor Hybrids are too new and scarce to be available in separate colors and can be furnished only in mixture. 3 for 90c; \$3.00 per doz.

Single Hollyhocks Mixed or in Separate Colors. 3 for 75c; \$2.25 per doz.

H., Allegheny Hybrids Mixed. Immense semi-double flowers with fringed edges. 3 for 75c; \$2.25 per doz.

HOSTA (Day Lily; Plaintain Lily). Among the hardiest and most easily grown perennial plants. Particularly effective as a border for a walk or path. Will bloom all summer.

H., caerulea (Blue Day Lily). Light blue flowers rise 12 to 18 inches above the broad green leaves. 3 for \$1.00; \$3.00 per doz.

H. subcordata grandiflora (White Day Lily). Tall spikes of small white flowers. Extremely desirable for cutting. 3 for 75c; \$2.50 per doz.

H. undulata variegata. The lovely, graceful green leaves of this variety are fluted and edged white. It is one of the most beautiful foliaged plants in existence. The flowers, colored lilac, are very attractive. 3 for 75c; \$2.50 per doz.

IBERIS cordifolia (Candytuft). Small plants growing 8 to 10 inches, with a handsome evergreen foliage. Desirable for edging, as a ground cover for spring blooming bulbs or rockeries. In May, when the plant is in bloom, it is completely hidden by a myriad of large, glistening snow-white flowers. 3 for 65c; \$2.00 per doz.

***I. sempervirens nana.** This is the dwarf form, growing about 4 inches; the flowers are white. 3 for 70c; \$2.25 per doz.

INCARVILLEA Delavayi (Hardy Gloxinia). A lovely hardy plant with handsome pinnate foliage which produces spikes 18 inches tall, crowned with splendid trumpet-shaped flowers borne in terminal racemes. The flowers are colored a lovely rosy pink and in shape and appearance resemble the famous Gloxinia of the conservatory and are their equal in beauty. 3 for \$1.20; \$3.50 per doz.

SIBERIAN IRIS. The Siberian Iris are tall, stately plants growing between 3 and 3½ feet tall, blooming in the early spring and most effective either for garden planting or for cut flowers.

Iberis Sempervirens Nana

HARDY PERENNIALS — Continued

IRIS, Perry's Blue. One of the loveliest Irises in existence. The flowers are extra large and clear light blue. The blue of this variety is delightful, being clear, clean and bright and tremendously conspicuous in the garden. No other Iris has a color as lovely. 3 for 75c; \$2.50 per doz.

***I., Snow Queen.** An exquisite Iris, the flowers of which are snow-white, and large and beautifully formed and produced in tremendous quantities. 3 for 65c; \$2.00 per doz.

I. superba. Lovely rich dark violet-blue flowers. 3 for 65c; \$2.00 per doz.

LINARIA alpina. A new plant, the newest to arrive from the plant breeders to enrich our gardens. The plant blooms all summer and the flowers resemble a miniature Snapdragon. The flowers, which are produced in myriads, are colored various shades of orange and purple. The plant has a handsome, trailing, grayish-green foliage. 3 for \$1.00; \$3.25 per doz.

LYCHNIS chalconica (Maltese Cross). This variety grows 3 feet tall and produces heads of intense, vivid scarlet flowers. It blooms all summer and is the brightest and most conspicuous plant in the garden. 3 for 75c; \$2.50 per doz.

***L. viscaria splendens** (Ragged Robin). Handsome plants with narrow foliage blooming in June. It sends up flower stems 14 inches or so long crowned with the most vivid, brilliant vermilion-red flowers, which are splendid for cutting. 3 for 65c; \$2.25 per doz.

***LYTHRUM roseum superbum** (Rose Loosestrife). Grown readily in moist soil or among shrubbery. Flowers are rose-colored, borne freely in July and August. 3 to 5 feet. 3 for 65c; \$2.25 per doz.

MATRICARIA capensis (Feverfew). Dense clusters of exceedingly double white flowers about the size of a nickel borne on two-foot stems throughout the entire summer. Splendidly effective in the border and indispensable as a cut flower. 3 for 75c; \$2.25 per doz.

MONARDA didyma, Cambridge Scarlet (Bee Balm). Glorious heads of bloom 3 feet tall, colored the most vivid, brilliant scarlet. Flower from June until August. The plant belongs to the Mint family and the leaves are slightly fragrant with this pleasant odor. 3 for 75c; \$2.25 per doz.

Polyanthus, Munstead Giant

Iris, Snow Queen

Saponaria Ocymoides Splendens

NEPETA Mussini. A lovely dwarf plant growing about 1 foot high and spreading from 12 to 15 inches with attractive grey-green foliage. Flowers all spring and intermittently during the mid-summer. It is covered with masses of pale lavender-blue flowers. One of the most desirable of all edging plants for the perennial border and indispensable in the rock garden. 3 for 75c; \$2.25 per doz.

***OENOTHERA glauca Fraseri** (Evening Primrose). On stems about 3 feet tall are produced splendid large yellow flowers borne in clusters. Flowers through July and August. 3 for 65c; \$2.00 per doz.

PHYSOSTEGIA virginica, Vivid (False Dragonhead). This is a semi-dwarf form growing 2 feet tall and blooming throughout July and September. It is one of the easiest of all perennials to

grow. The flowers are a lovely bright violet-pink which last a long time in water when cut. 3 for 65c; \$2.00 per doz.

PLUMBAGO larpentae. Lovely low-growing plants with small leathery heart-shaped leaves, bronzy green in color. The plant is spreading in habit and grows 6 to 8 inches and is covered with deep blue flowers during the late summer and fall. Marvelous for edging and indispensable for rock gardens. 3 for 75c; \$2.50 per doz.

POLEMONIUM caeruleum (Jacob's Ladder). Takes its common name from the manner in which the leaflets are arranged. The flowers are bell-shaped, blue or white and about an inch across. 1 to 3 feet. May and June. 3 for 75c; \$2.25 per doz.

***P. reptans.** A dwarf, bushy plant with fine foliage and graceful habit which never becomes shabby. Lovely blue flowers borne on stems 6 inches long in the early spring. For the border or for the rock garden. Plants will stand almost full shade. 3 for 75c; \$2.25 per doz.

PRIMULA, Gold Lace (The New Lace Cowslip). The newest Cowslip, the like of which has never before been seen. The center of the flower is colored old bronze and is edged with a bright, sparkling band of glistening golden yellow. The flower suggests that it might be made of delicate lace. 3 for 75c; \$2.50 per doz.

***P., Munstead Giant.** A new and very lovely strain of bunch-flowered Primroses. The flowers are all shades of yellow, cream, dark orange, pink and dark red. Can be furnished in mixtures only. 3 for 65c; \$2.00 per doz.

P. veris alba. Similar in habit to Munstead Giant except the flowers are colored white. 3 for 65c; \$2.00 per doz.

HARDY PERENNIALS — Continued

PRIMULA veris aurea. The wonderful new yellow Cowslip. The individual flowers are larger than anything that has preceded it. Myriads of flowers are produced and colored a wonderful, glistening golden yellow. 3 for 75c; \$2.25 per doz.

RUDBECKIA purpurea (Giant Purple Coneflower). Very large purple flowers of a most attractive color with a large brown, cone-shaped center. Blooms from July to October and grows 3 feet high. One of the most distinguished and effective plants possible for the hardy border. 3 for 75c; \$2.25 per doz.

***SAPONARIA ocymoides splendens** (Soapwort). Lovely rosy pink flowers in May and June borne on handsome, small-leaved, dwarf plants. The Soapwort will thrive in soil too poor for almost anything else. 3 for 75c; \$2.25 per doz.

SCABIOSA (Mourning Bride). The older Scabiosas were among the loveliest garden plants in existence. Unfortunately they had two weaknesses. First, they were not too hardy, and, second, they were not true perennials. The new Scabiosas completely and entirely correct these difficulties. Originally natives of the frigid Manchurian plains, they can withstand any cold the climate of the United States can offer, and they are true perennials.

S., Blue Beauty. The new double Mourning Bride. The flowers are very large, larger than any other variety and very double. The color is a brilliant lavender-blue. 50c each; \$5.00 per doz.

***S. Fischeri.** Gorgeously lovely flowers 3 inches in diameter colored a splendid, rich, deep violet-blue. The plants grow 2½ feet and the flower stems are 2 feet long. The flowers are produced throughout the summer and early fall and supply great quantities of the most fascinating of cut flowers. 3 for 75c; \$2.50 per doz.

SPIREA palmata elegans. A lovely plant producing a tuft of palmate leaves crowned with panicles of lovely pink flowers borne on stems 2 feet or taller, and flowering in July and August. 3 for 75c; \$2.25 per doz.

STOKESIA laevis (Stokes' Aster). A most charming and beautiful native hardy plant. The plant grows from 18 to 24 inches high, bearing freely from early in July until late in October, its handsome lavender-blue, centaurea-like blossoms which measure from 4 to 5 inches across. It is of the easiest culture, succeeding in any open sunny position, and not only is it desirable as a single plant in the hardy border, but it can also be used with fine effect in masses or beds of any size. 3 for 75c; \$2.25 per doz.

S. laevis alba. Pure white variety of above. 3 for 85c; \$2.75 per doz.

SWEET WILLIAM. The old-fashioned Sweet William so well known by everybody that describing it would be a bore. Are always in every American garden since colonial times. The newer Sweet Williams listed below are the last word on this subject from the world's great plant breeders.

***S., Holborn Glory.** The new amaranth-red Sweet William with a white eye. 3 for 75c; \$2.25 per doz.

S. latifolius atrocoeruleus. Immense, double flowers of dazzling deep scarlet. Stunning in the border and effective for cut flowers. 3 for 65c; \$2.00 per doz.

SWEET WILLIAM, Pink Beauty. A new pink Sweet William, the color of which is absolutely pure. 3 for 75c; \$2.25 per doz.

S., Purple Beauty. Absolutely the newest of the Sweet Williams, colored clear, clean, claret-purple. 3 for 75c; \$2.25 per doz.

S., Scarlet Beauty. The newest and unquestionably the finest scarlet Sweet William. 3 for 65c; \$2.00 per doz.

***THALICTRUM adiantifolium** (Meadow Rue). A lovely plant with graceful, finely divided foliage which resembles the foliage of the Maidenhair fern. In June it sends up 2-foot spikes of feathery, miniature white flowers. It may be grown in the perennial border or bed or planted in front of shrubbery, and makes the most delightful bouquets either alone or in combination with other flowers. 3 for 75c; \$2.25 per doz.

T. aquilegifolium. The foliage of this graceful, beautiful variety resembles that of the Columbine. The flower spikes are from 2 to 3 feet tall and the feathery flowers are lovely rosy purple, blooming in June and July. 3 for \$1.20; \$3.50 per doz.

THYMUS lanuginosus (Woolly-Leaved Thyme). An almost prostrate creeping perennial with fragrant foliage. Specially suitable for growing in dry, hot spots such as sunny banks, rock gardens or between the crevices of rocks where it will spread and make a mat. Foliage is woolly green and the flowers in June and July are bright shining pink. 3 for 65c; \$2.25 per doz.

VALERIANA (Garden Heliotrope). Showy heads of flowers during June and July with strong, heliotrope odor.

V., White. 3 for 65c; \$2.25 per doz. **V., Red.** 3 for 65c; \$2.25 per doz.

***VERONICA longifolia Hendersoni nana.** Veronica longifolia subsessilis is one of the finest hardy plants in cultivation. This variety is a dainty, smaller edition of Veronica longifolia subsessilis, with all the merits of its larger brother and of the same lovely blue color. 3 for 75c; \$2.50 per doz.

V. longifolia subsessilis. It is hardly necessary to describe this beautiful plant, being already so well known and universally popular. Is the tallest of the group, growing about 2½ feet. Produces spikes from July to September, completely studded with the most beautiful blue flowers. While nothing is better for the hardy border, the flowers are equally as good for cutting. 3 for 90c; \$3.00 per doz.

V. spicata rosea. This lovely variety produces flower spikes about 2 feet tall, which bloom all summer. The flowers are lovely pink. 3 for 65c; \$2.00 per doz.

V. rupestris. A dwarf variety growing 3 to 4 inches high with thickly matted, deep green foliage which is completely hidden in June under a cloud of bright blue flowers. Since this variety will stand partial shade, it is a good ground cover for shrubbery borders, to say nothing of its uses in the garden or the rockery. 3 for 65c; \$2.00 per doz.

If wanted by parcel post, add 13c for each three plants; 27c for a dozen plants.

Scabiosa Fischeri

Thalictrum Adiantifolium

Clematis Henryi

Large Flowering CLEMATIS

We do not remember when the lovely Large-Flowered Clematis sold for less than a dollar. For the first time we have secured a collection of first class plants which we can offer at a real bargain. Furthermore, the plants are pot-grown, which lessens the shock of transplanting and increases the probabilities of successful results. While the stocks we now have are available, we will sell Large-Flowered Clematis at 50c each, exactly one-half price. When these plants are gone, the price will be \$1.00 each.

Duchess of Edinburgh. The lovely white flowers of this variety are double.

Henryi. Magnificent white flowers.

Jackmani. The lovely and ever popular large-flowered purple Clematis.

Mme. Baron Veillard. The beautiful pink large-flowered Clematis.

Mme. E. Andre. Glorious large carmine-red flowers.

Ramona. A truly beautiful large-flowered blue Clematis.

Any of the Large-Flowered Clematis: 50c each; \$5.00 per doz.

CHINESE FLEECE VINE

(*Polygonum Auberti*)

We have always considered *Polygonum Auberti* the loveliest and most fascinating of all hardy vines. The Chinese Fleece Vine is comparatively new and its unusual beauty is just becoming generally known. Eventually it will be an even greater favorite than the famous Clematis *Paniculata*.

Growing fast, it will cover a trellis, stump or other support in short order. It will climb from 15 to 20 feet or more. The lovely foliage is small but so dense that it makes a perfect screen. The small, ivory-white flowers, borne in loose tasseled panicles, literally cover the upper expanse of the vine in a fleecy cloud of bloom during late August and September. The heavy festoons of flowers on the older plants are beautiful beyond description.

Evergreen Bittersweet

75c each; \$7.50 per doz.

Polygonum Auberti

The Famous EVERGREEN BITTERSWEET

The Evergreen Bittersweet will climb 30 feet and cling to any unpainted masonry wall; stone, brick, concrete, etc. It is the only evergreen vine in cultivation hardy north of the Mason and Dixon Line. Like all evergreens it develops slowly for the first two or three years, but when fully developed, is magnificent. In addition to the lovely evergreen foliage, it produces when fully developed, a magnificent crop of gorgeous scarlet berries. It may also be used as a dwarf hedge to take the place of Box, where Box will not stand.

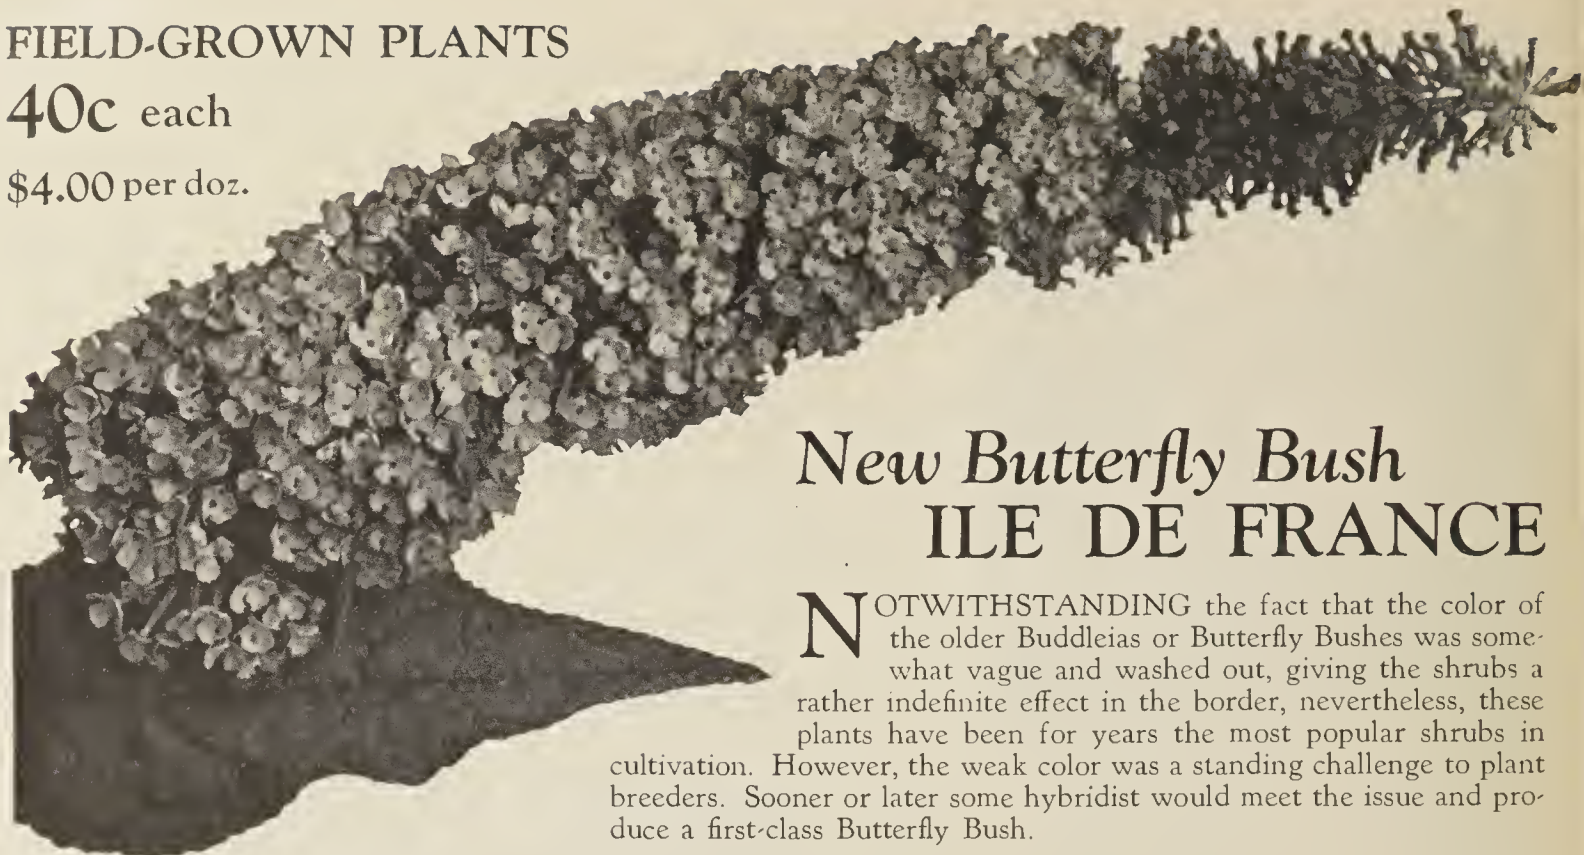

Evergreen Bittersweet: 40c each; \$4.00 per doz.

All Vines by parcel post, add 16c for each three vines; single vine, 12c.

FIELD-GROWN PLANTS

40c each

\$4.00 per doz.

New Butterfly Bush ILE DE FRANCE

NOTWITHSTANDING the fact that the color of the older Buddleias or Butterfly Bushes was somewhat vague and washed out, giving the shrubs a rather indefinite effect in the border, nevertheless, these plants have been for years the most popular shrubs in cultivation. However, the weak color was a standing challenge to plant breeders. Sooner or later some hybridist would meet the issue and produce a first-class Butterfly Bush.

This has now been accomplished and Ile de France is the answer. Its color is real and substantial, a brilliant rosy purple with a violet suffusion that actually stands out and is visible in the landscape. In addition, the flowers are fragrant, which is also new among the Butterfly Bushes. The individual flower spikes are very large, measuring 10 inches in length. The shrubs develop into well-branched symmetrical bushes, 3½ to 4 feet tall. A truly great creation. Field-grown plants, 40c each; \$4.00 per doz.

☞ If wanted by parcel post, add 19c for each three plants. ☛

Orders Subject to the Following:

Terms of Payment. Invariably cash on delivery. We deliver the goods and mail bills at the same time, and expect payment within a few days. People unknown to us please send cash or references with orders.

Prices and Packing. Prices are subject to stock offered being unsold when ordered. Six plants of a kind will be furnished at the dozen rate; 50 or more at the 100 rate. Less than 6 plants of one kind or variety will be sold only at the single rate. All prices f.o.b. point of origin.

Forwarding. Shipments will be forwarded exactly as directed, but when instructions are not given we will forward by shortest and fastest route.

Claims for Damages. We guarantee the safe arrival of plants shipped by Express and Parcel Post. Goods shipped by Freight travel at customer's risk.

Shipping Directions. Please give exact shipping directions, stating whether the stock is to be shipped by parcel post or express.

Inspection. Our stock is regularly inspected, and certificates will be sent with each shipment.

No Agents Employed. We employ no agents whatever, but do an exclusive retail business direct with our customers.

Please Print Your Name and Address on your order. Many times it is extremely difficult to read these two important parts of an order, and the shipment may go astray.

Guarantee. We guarantee all nursery stock furnished by us to be first class and true-to-name. We do not guarantee it to grow, or stand good for the result in any way. COMPLAINTS MUST BE MADE IMMEDIATELY UPON RECEIPT OF STOCK. There are so many causes for failure over which we have no control, that we can assume no responsibility after the stock is delivered in good order. Poor soil, changeable weather, ignorant or careless culture—all contribute to failure. A catalog as comprehensive as this must of necessity offer some varieties of difficult culture; when these are ordered we presume the people ordering have the knowledge, enthusiasm and perseverance, and these we cannot supply.

New Phlox, Tigress

B. Comte. Enormous heads of brilliant scintillating dark red flowers. Really splendid.

Blue Hills. The nearest to blue and incomparably the best. 3 for \$1.00; \$3.50 per doz.

Daily Sketch. The newest and by far the loveliest of the pink Phlox. Tremendous trusses and individual flowers. Truly magnificent.

Feuerbrand. Vivid orange-scarlet flowers produced in enormous quantities continuously throughout the season. The most splendidly brilliant Phlox in existence. 3 for 90c; \$3.00 per doz.

Leo Schlageter. Splendid flower heads of the most gorgeous flaming scarlet. The best of the red varieties.

Miss Lingard. The plant has beautiful, long, shiny leaves and is absolutely free from all diseases. It produces from 2 to 3 crops of flowers a season from June until October. The flower heads are immense and the individual flowers are of the loveliest, clean, pure white, with just a faint pink shading in the center. The best and most satisfactory Phlox. 3 for \$1.00; \$3.00 per doz.

Mrs. Jenkins. A pure white variety which flowers late and is the best white Phlox for planting in masses.

Pink Beauty. A new Phlox of the Miss Lingard type having all the merits of Miss Lingard. It has the same fine foliage, freedom from disease and flowers as often and as finely. The flowers, however, last about twice as long as Miss Lingard, and the color is the loveliest clear mauve-pink. 3 for 90c; \$3.00 per doz.

Rhineland. Lovely salmon-pink. Both flower and truss are immense size and the color is intensified by a brilliant carmine eye. Truly superb.

Von Lassburg. Immense trusses of pure white flowers blooming weeks earlier than the others.

William Kesselring. Mammoth individual flowers colored intense violet with a distinct white eye.

All Phlox, except where noted: 3 for 75c; \$2.50 per doz.

If wanted by parcel post, add 10c for six plants.

Tall Hardy PHLOX

The Foundation of the Garden

NEW PHLOX COLUMBIA

(Plant Patent No. 118)

The color is an exquisite cameo-pink with a faint blue eye and produces an effect never before seen in Phlox. The clearness of tone is remarkable and the marvelous brilliant color does not fade into purple as the flower ages. The flower crop is immense. A well-grown plant will produce 15 flower spikes $2\frac{1}{2}$ feet high. Mildew, black spot or dead leaves are unknown to this variety. Unquestionably the finest of the pink Phlox, and probably the finest of all Phlox. 50c each, 3 for \$1.25; \$4.00 per doz.

NEW PHLOX TIGRESS

After a century of effort the plant breeders have at last given us a real flame-colored Phlox!

We have, of course, had flame-colored Phlox before, but in the past breeding this color into Phlox weakened the plants severely; the flowers were always poor, small and inferior and frequently the plants did not bloom. Meanwhile disease and insects took their toll of the weakened strain.

The new Phlox Tigress is the realization of the Phlox-lover's dream. The plants grow tall and sturdy—equal, in this respect, to Columbia or Miss Lingard. There is no suggestion of disease or weakness and the flowers are immense, the largest that grow and the color is the true vividly brilliant orange-scarlet flame that the world has sought for over a century. Tigress is incomparable in its magnificence. 50c each; 3 for \$1.35; \$4.75 per doz.

Non-Patented Varieties

Africa. A new brilliant carmine-red Phlox with a blood-red eye. The flower heads are enormous. Specially fine variety. 3 for 90c; \$3.00 per doz.

Beacon. A tall Phlox, 36 inches high, with gorgeous cherry-red flower heads borne on straight, strong stems. The best light red. 3 for 90c; \$3.00 per doz.

All Phlox

except where noted ~

3 for 75c
\$2.50 per doz.

Phlox

Tall English DELPHINIUMS

WE ARE tempted to say that the improved English Delphiniums are the most beautiful hardy plants in cultivation. Blooming all summer, coming up year after year, sending aloft successive shafts of incredible color to a height of 5, 6, or 8 feet, it is doubtful if any other plant so superb as Delphinium ever graced a garden.

Few people are aware of the perfection to which the ancient flower has been brought by modern plant breeding, how easily it can be planted and grown, and how lasting a delight the gardener secures who plants Delphinium. If everyone knew, tall hardy Delphiniums would be more in evidence everywhere.

We offer especially selected plants grown from seeds of famous named varieties. Will grow anywhere but do best in rich garden soil. Every imaginable tint and shade of blue, lavender and purple. We promise you'll find positive joy in their extraordinary bloom.

New White Delphinium, Iceberg

For fifty years or more, plant breeders have been working to produce a satisfactory white Delphinium. There have, of course, been white Delphiniums, but the color was always a dirty gray-white, which we refuse to grow or handle. Now at last in Iceberg the long-sought-for white Delphinium is here. The color is pure white, without a trace of the nasty gray shade. Like other Hybrid Delphiniums the plants are tall, growing 6 feet or more, and their habit is that of the older Delphiniums. The new white strain requires no special treatment and should be handled exactly as you are accustomed to handling the older Hybrids. 50c each; 3 for \$1.20; \$4.00 per doz.

Elliott's Magnificent Varieties

Grown from the finest Blackmore and Langdon strains. Range in color from very light blue to very dark blue, overlaid irregularly with tones of pink and lavender, rose and lilac, black spots on pistil and anthers at center of flower. Many blossoms show white secondary petals at base of the major petals. A wonderful wealth of color variation. 3 for \$1.00; \$3.00 per doz.

Fine Mixed English Hybrids. Seedlings grown from the finest English and American strains. 3 for 75c; \$2.50 per doz.

Species Delphiniums

Belladonna. Uniform sky-blue flowers. 3 for 75c; \$2.50 per doz.

Bellamosa. Solid dark blue flowers. 3 for 75c; \$2.50 per doz.

Dwarf Chinese Delphiniums

The lovely Chinese Delphiniums grow about 2½ feet. **Delphinium chinense.** Dark blue. 3 for 65c; \$2.00 per doz.

Delphinium chinense. White. 3 for 65c; \$2.00 per doz.

Delphinium chinense, Cambridge Blue. The new azure-blue Delphinium superseding Azure Fairy. A real improvement. 3 for 65c; \$2.00 per doz.

Elliott's Magnificent Delphiniums

If wanted by parcel post, add 13c for each three plants.
